

# Home Loan – Salaried Flow – Suggestions

**Project:** Home Loan - Salaried Flow

**Platform:** ZooP Orchestrator

**Version:** 1.0

**Prepared By:** Anagha S

**Date:** 6/11/2025

---

1. Session auto-save has to be implemented
2. Introduction of test data generation tools for testing
3. Introduce automation for key flows (OTP, offer selection, payments) using Appium
4. Auto-validate co-applicant eligibility before proceeding
5. Show real time upload progress and success or failure proceeding
6. **Interactive Loan Status Tracker**  
*Issue:* Users are unsure of progress after application submission  
**Improvement:** Introduce an interactive timeline showing **pending verification steps**, expected review time, and a direct link to customer support if stalled
